Evergreen-ils.org

Proposed Home Page Concept #1

2011/05/09/jc

Annotations

1. User login/status menu
2. Site Search field
3. Upcoming events (dynamic)
4. Primary Navigation
5. Feature Banner (slideshow rotator)
6. Development links
7. Resource links
8. Community links
9. Dev feed (Launchpad)
10. Latest resources (website)
11. Community News (planet)

The wireframe shows the layout of the proposed home page. At the top left is the logo 'EVERGREEN™' with a stylized plant icon. To the right of the logo is a 'User Actions' menu (1) and a search field (2). Below the logo is a primary navigation bar (4) with links for 'About | Download | Docs | Help | News'. The main content area is divided into several sections: a large feature banner (5) with a '1 || 2 || 3 || 4' indicator at the bottom; a 'CONNECT WITH US' section (8) with a Facebook icon; a 'Development' section (6) with links like 'Contribute Code', 'Roadmap', 'Report Bugs', 'Feature Request Process', and 'New Feature Percolator'; a 'Resources' section (7) with links like 'Official documentation', 'Community wiki', 'Resources by topic', 'Resources by audience', 'Guides', and 'Mailing list/IRC archives'; and a 'Community' section (8) with links like 'Evergreen Libraries', 'Evergreen People', 'Committees & Groups', 'Service Providers', 'Conferences & Events', and 'Mailing list and IRC/chat'. At the bottom, there are three news sections: 'Development News' (9), 'Latest Resources' (10), and 'Community News' (11), each with a list of items indicated by asterisks and dashed lines.

Evergreen-ils.org

Proposed Home Page Concept #2

2011/09/05/jc

Similar to Concept #1, but with choices targeted at various groups of users:

1. Potential Adopters

2. Existing Users

3. Users seeking community involvement

4. Developers and users seeking participation in the development process.

Feature Percolator:
Feature Detail w/
Comments

2011/09/05/jc

When users view a specific proposed feature, they can submit comments about it or make contact with the user that proposed the feature to discuss ways to move forward.

Proposed Feature: Add new X and Y to main login page (#206)

Submitted *15 May 2012* by *[jdoe](#)*. (contact this user =>)

Jdoe is *willing to sponsor* this feature. Category(ies): *Interface*

It would be nice if the main login page had widgets for X and Y. They are the latest and greatest thing for login pages.
